NH DHHS COVID-19 Update – April 11, 2020

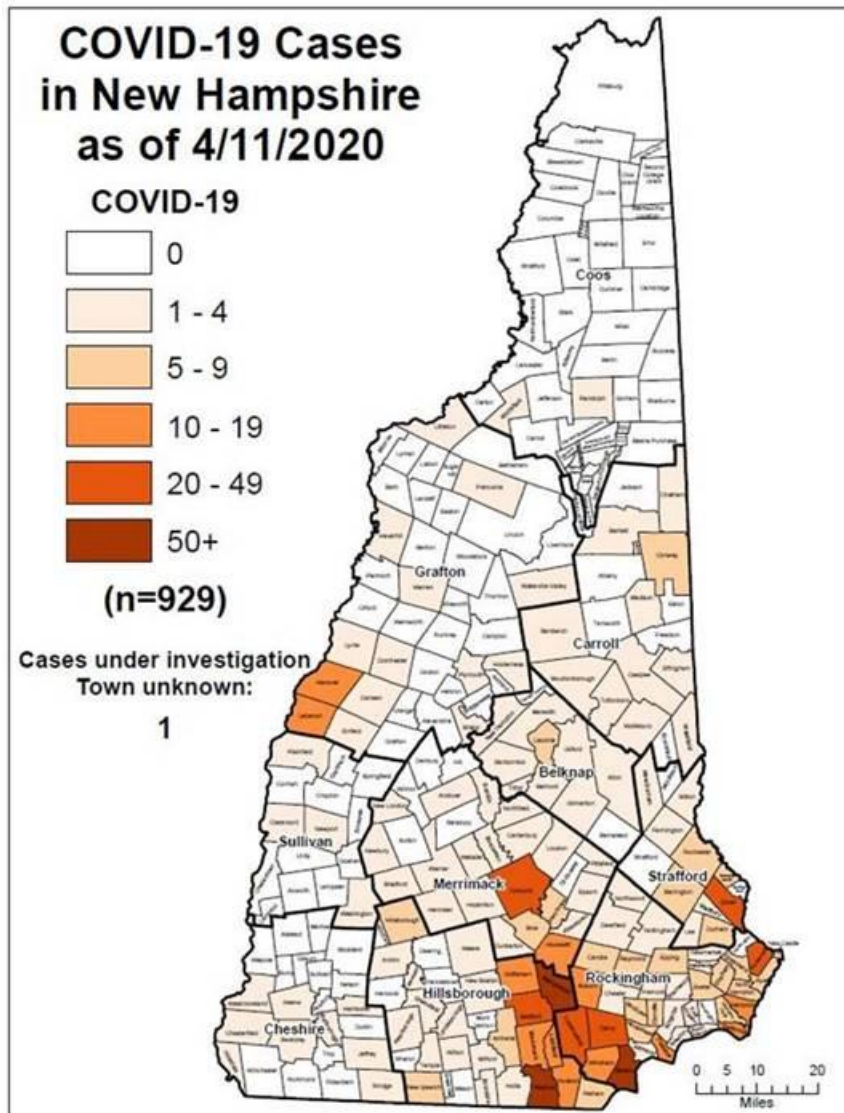

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Saturday, April 11, 2020, DHHS announced 45 new positive test results for COVID-19. There have now been 929 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Of those with complete information, all are adults with 29% being female and 71% being male. The new cases reside in Hillsborough County other than Manchester and Nashua (14), Rockingham (8), Merrimack (5), Strafford (5), and Cheshire (1) counties, and in the cities of Nashua (6) and Manchester (5). The county of residence is being determined for one new case. Twelve new COVID-19-related hospitalizations were reported; thus far, 146 (16%) of the 929 positive cases have been hospitalized. Ten of the new cases have no identified risk factors. Community-based transmission continues to increase in the State and has been identified in all counties with cases. Most of the remaining cases have either had travel to domestic or international locations or have had close contact with a person with a confirmed COVID-19 diagnosis.

DHHS has also announced one additional death related to COVID-19. We offer our sympathies to the family and friends.

- A female resident of Rockingham County, 60 years of age or older

Current Situation in New Hampshire

County	Cases
